

I am writing to tell how much I rely on & benefit by having SAT radio in my car. I travel to BOS daily & use XM Radio channel 210 to navigate through the horrendous BOS traffic. Satellite radio provides variety and quality that is not available elsewhere.

I pay monthly for these premium services and it should not be up to the National Association of Broadcasters to dictate what you are permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand, deserve & pay for. This type of petition is ludicrous & should be banned & struck out.
